Rasmi Lighting Ltd

ABOUT US

In 1978 Rasmi Lighting Ltd began designing and manufacturing transformers, emergency lighting and low voltage lighting systems. We have since evolved to keep pace with the ever changing technology available. Our designs presently focus on high efficiency LED light source technology for home, commercial and outdoor applications.

Rasmi Lighting Ltd specialists at all sites are constantly working to further develop and expand the range of products offered, provide the technical support required by our customers, as well as ensuring that all products are designed to operate safely and efficiently.

A great emphasis has been made to provide Rasmi customers with modern designed products with energy saving options of up to 80% compared to incandescent lighting. The LED systems can have lifetimes of over 50,000 hours (around 6 years if used 24 hours per day) using a fraction of the energy.

Our customer base is worldwide and includes some of the biggest companies in the world. We supply both the private and public sector as well as contractors for projects.

Rasmi Lighting are a member of the LIA, the Lighting Industry Association have extensive facilities for testing the quality and safety of LED luminaires. All of the products in this catalogue are tested and approved under LIA LAB verified and Energy Saving trust verified schemes.

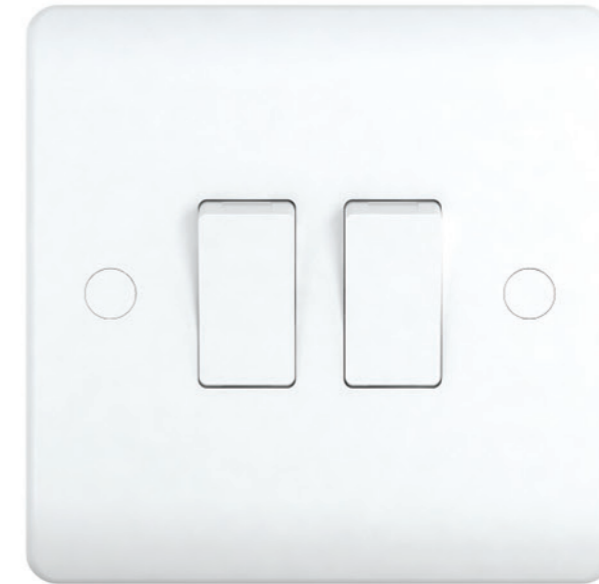

Our mission is to continue to service our existing customers and to grow by expanding into new markets. We are trying to achieve this by being at the forefront of the fast moving technological changes in LED lighting.
